## Russell County and Her Prospects.

There is an old saying that all things come to them who wait.

The people of Russell county, seemingly, have been satisfied with their lot ever since it was known as a county—moving along in the same old way—until recently, when the spirit of improvement struck them, and they are now making an effort toward advancement, and flattering prospects are knocking at the door of every farmer and every business man in Russell county.

Recently the county, by an overwhelming majority, voted the bonds for the Dixie Highway, and ere long a splendid pike will pass through the county, enhancing the values of lands, and the people will be so stimulated that attractive farm houses will be dotted all over the county, and the buzz of machinery will be heard through out her domain.

The lands on Cumberland river are as good as can be found anywhere, and the uplands are up to the average. The timber has not all been cut, and when business properly opens, saw-mills will be installed in nearly every locality, and the hammers and saws of industrious mechanics will be heard from the rising of the sun to the setting thereof. Everybody will be busy, everybody will be shouting, "the day of prosperity has come" and old Russell is coming into her own.

The machinery for making pikes has already reached Jamestown, and in the next few weeks the breaking of dirt and the crushing of rock for the road from Jamestown to Russell Springs will commence and will be pushed to a rapid finish.

When this road is completed other parts of the county will be looked after, and in five years it is confidently believed that good thoroughfares will traverse all parts of the county.

## Married in Louisville.

A wedding of unusual interest to Columbia friends took place in Louisville, Wednesday, the 20th at 1:30 a. m. when Miss Mallie Moss was united in marriage to Mr. Herbert Smith. The ceremony was said by the Rev. J. W. Weldon at his home on West Broadway. Miss Moss is a daughter of Mr. N. H. Moss, formerly of Columbia, but residing now at Gradyville. She possesses all the traits that go to make up a lovable character and numbers her friends by her acquaintances.

Mr. Smith is a son of Mr. and Mrs. G. A. Smith, of our city, but for three years has been Secretary to the President of the Consolidated Coal Co. of Eastern Kentucky, located at Van Lear. Herbert is a splendid christian gentleman, with high ideals and lives up to them. They have many warm friends in Columbia who are wishing for them a very bright future, trusting that they may ever be able to compare the joys of today with the pleasures of yesterday.

Mr. N. H. Moss and Miss Ora Moss, of Gradyville, Mr. and Mrs. Gwin Moss, Mr. and Mrs. Henry Moss and Mr. Otis Moss, of Greensburg, and Miss Jennie McFarland, of Columbia, attended the wedding.

The couple left at once for a short trip to West Virginia before going to their home in Van Lear.

The Graded school at Jamestown, under the management of Prof. Bernard, assisted by two competent lady teachers, is getting along nicely. The school building is on Monticello street a good walk from the square leading to the building. One thing that the school is very much in need of is a gymnasium, and we understand that an effort will be made to erect one at an early day. In fact, the framing for one was started a year ago, and what the trustees want to do now is to finish it. In this day and time a school is lost unless there is a place for the boys and girls to exercise their muscles.

The road machinery for Adair county reached Columbia last Saturday, and Monday morning it was put in motion, and the first work will be on the Campbellsville pike to the Taylor county line. In the meantime the quarrying of rock for the Stanford road will commence. The machinery will evidently make good roads.

Columbia Chapter will meet next Friday night. All companions are urgently requested to attend.

Grover Grissom has had some necessary repairs done at his residence.

## Crowd Thrilled With Foot Ball.

A very large crowd was held to a high pitch of excitement Saturday evening during the first game of foot ball ever played in Adair county, which resulted in a victory of 40 to 0 for Lindsey-Wilson over Springfield High school. The game was characterized by those plays which make it the most popular of college sports. Several times Springfield players circled the ends of the Columbia team as if for a touchdown only to be tackled by some aggressive Lindsey player. The feature of the contest were the irresistible offense of Dave Dulworth and the aggressive defense of Lewis, Dulworth and Jarvis. The Springfield boys complimented the manly way in which the Adair county boys played the game, but could hardly believe that it was the first one ever played by them.

On next Saturday Lindsey will play the strong Eastern Kentucky State Normal team on the Lindsey-Wilson field. This promises to be a close and hard contested battle, as the Richmond team is heavy and experienced.

At the Meeting of the Kentucky Grand Lodge of Odd Fellows at Dawson Springs, last week, it was decided to locate the Home for Indigent Odd Fellows, their widows and orphans, at Eminence. The Giltner property, formerly known as Eminence College, has been purchased for that purpose. The ten lodges in Henry county subscribed \$3,500 for the fund of \$10,000 necessary, leaving only \$6,500 for the Grand Lodge to raise. More than this has already been subscribed and the success of the Home is assured. The property consists of a commodious building and 27 acres of ground.

# HAMLETT'S REPLY TO E. P. MORROW

## Hopkins County Voters Hear Every Charge Explained

### EDUCATION ADVANCED

Kentucky Climbs from Forty-third to  
Near the Top Within Three Years  
Under Hamlett's Administration—  
Shows How Economy Has Been  
Practiced.

Hundreds of Democrats from Western Kentucky gathered in Madisonville, Hopkins County, on October 4th, and listened attentively to the opening of the campaign by Barksdale Hamlett, present Superintendent of Public Instruction and Democratic nominee for Secretary of State at the general election on Tuesday, November 2, 1915.

Mr. Hamlett was liberally applauded and it is quite evident that the solid Democracy is behind him. He answered every charge made against him by the Republican nominee for Governor, Edwin P. Morrow, and showed of gross extravagance in the last Republican administration.

A verbatim account of his address follows:

Fellow Citizens:  
In this campaign, as the Democratic nominee for Secretary of State, and the present Superintendent of Public Instruction, I am addressing myself particularly to what Democracy has done for education in Kentucky, and to an offensive reply to the Honorable Edwin P. Morrow, who has viciously attacked an Administration that has done more for the cause of popular education and the improvement of the public schools of Kentucky than has been done by all Republican administrations in the history of the State, or would be done by any that might come in the future.

There is a natural hostility on the part of Republican leaders to popular education and progressive movements tending to the building of a great Commonwealth. Thomas Jefferson, aside from being the author of the Declaration of Independence, counted it his next greatest achievement that he used the remaining best efforts of his life in building a public school system for Virginia and in planning a model for America; and we honor Jefferson in his posthumous glory as much for this as for any of his other great achievements.

#### Progress Under Democracy.

From the beginning of our public school system in Kentucky all progress and improvement in the system has been accomplished when the affairs of State were in the hands of Democrats and Democratic Legislatures.

We have modeled our system after the plan of Jefferson, the founder of Democracy and the Democratic Party of America. We have developed in spite of the opposition of such small politicians as Morrow, R. "Pea" Green, the illiterate "Broncho Franks," the intrepid "Bank-failure" Bruner, the wise and austere one-time Democrat, Walker, the millionaire mountaineer Lewis, who, I am informed, has handled school funds in times past, and others of this ilk whom I have neither space nor time to mention, a system of public education commensurate in its efficiency to that of any commonwealth in America. I exclaim, as Cicero did, "O tempora, O mores;" and with the Bard of Avon, "Alack the day" when such men, clothed in Catilinarian habiliments, should parade themselves before an intelligent public and dare to stand in the way of educational progress—would attempt to deny to the children of this Commonwealth their rightful heritage which they should enjoy, liberally, through an equitable distribution of the State's equipment.

I am glad to state to the people of Kentucky that I know, from written and verbal evidence, that even the thinking, sober citizenship of the Republican Party of Kentucky today condemns such men and their insidious aspersions, directed at the bed-rock and foundation of the existence, maintenance, and progress of a great Commonwealth.

#### From Forty-third to Near Top.

Since 1911, when the Republican Party was dethroned by an overwhelming majority, on account of promises made by Democrats in a platform of principles, Kentucky has moved from the forty-third in the scale of illiteracy close to the top, and today stands in the vanguard of Commonwealths of America. In fact, the eyes of the whole nation are upon her, and she

is pronounced by the leaders of every State as the one State that is leading today in education and the dissemination of knowledge.

#### Schools increased 45%.

We have not only increased the attendance in our public schools forty-five per cent within three years, but we have added to the revenues for school purposes, directly and indirectly, more than three millions of dollars. We have increased the school term in every rural district from six months to seven months, increasing at the same time in the aggregate all teachers' salaries, and in many cases the term has been made eight, nine or ten months, all of which has been done without a mill increase in taxation. In fact, the rate of taxation which was formerly twenty-six cents and a half on the hundred dollars for public school purposes has been decreased to twenty-six cents.

#### Replies to E. P. Morrow.

Now, for the present, I pass over Mr. Morrow's sophomoric ebullitions in which he states that "political campaigns are primarily for the benefit of the people," etc. But I come directly to certain specific statements that he made in his opening speech at Bowling Green.

We have today a balance in the school fund of one million dollars. At the corresponding date in 1911, under a Republican administration, there was a balance of \$314,084. We promised the people of Kentucky four years ago "most rigid economy" in the Department of Education, and we stated to the people that we would not stand for any diversion of the school funds, since it was, and is, clearly in violation of statutory law and the Constitution of Kentucky. We condemned unequivocally misappropriation of school funds. Mr. Morrow speaks of "large cash balances." I will show you why their balances were not so large. Their books, December 30, 1911, show a credit to the Sinking Fund of \$73,827.84; School Fund, \$445,014.43; total balance, \$518,842.27; deficit, General Expenditure Fund, \$249,123.33. They turned over to Mr. Thomas S. Rhea a Treasury balance, School Fund and all, January 1, of \$269,718.94.

I would like to know why they did not turn over that "sacred and inviolate" school fund, under the law and Constitution, of \$445,014.43. I would like to know now, for what purpose, and why they misappropriated those funds, and what they temporarily did with those funds.

From this you can see why their cash balances were not so large. I need not quote you Section 184 of the Constitution, nor Section 4371 of the Statute and Section 4372, wherein is stated, "Except as otherwise expressly provided in this chapter, no part of the common school fund, nor of the revenues thereof, shall be used for any other purpose than the payment of the teachers of the common schools." And Section 4373, which states, "The Auditor shall keep accounts in relation to this fund. He shall once in each month make a transfer to the credit of said fund, all receipts into the Treasury, with the sources of each item, for the benefit of the common schools, up to the date of said transfer." Section 4371 states, referring to a previous section and to the Constitution, "The foregoing shall constitute the annual resources of the school fund of Kentucky and shall be paid into the Treasury and shall not be drawn out or appropriated except to pay the expenses of the State Department of Education of whatever kind or character."

I want to know what this Republican administration did with this \$445,014.43, or such part of it as was unaccounted for when they turned over to Mr. Rhea, the new State Treasurer, altogether, school fund, and everything else, the sum of \$269,718.94. At the time when it was done, I personally called the attention of Mr. Farley, the Republican Treasurer, to the fact that there appeared to me to be "something rotten in Denmark." This gentleman facetiously stated that I had "much to learn," and that I would discover soon that the office of Superintendent of Public Instruction was regarded, among Republicans, as an insignificant position "without authority," and that I had better "keep quiet" and do as Republicans had done, leaving such matters to those "higher up."

#### Economy of Present Administration.

This present Democratic Administration has kept inviolate and sacred every penny of the school fund. Hence, the "large balances in the Treasury" that have been referred to, and for which this Administration has been viciously attacked. When there was this balance of \$445,014.43, shown by their own books, to the credit of the School Fund, they deliberately refused to pay a warrant of \$108,756.50, and this warrant had been past due the teachers of Kentucky since October 5, 1911. What were they doing with this "sacred" and "inviolable" fund? They used these "sacred and inviolate" funds for the retirement of State warrants and for the purpose of showing a "small cash balance" in the Treasury. In the meantime the poor school teacher went without her pay, three months past due, while the Xmas holidays were passing and the rigor of winter fast approaching.

#### Republican's Extravagance.

I have in my hands the photograph of a transaction that should bring "iron tears" to Pluto's cheeks, and make the angels in Heaven blush. I hold here the photograph of the "rape" of Kentucky's childhood's opportunity, the embezzlement of childhood's sacred heritage. I have here and present as an exhibit, the picture of a warrant for \$1,800, payable to an undertaker out of the school fund of Kentucky, and charged to the school fund of Kentucky for materials furnished in the erection of the State Capitol building. I have before me in my hands a photograph of an agreement under the terms of which \$3,761.29 was to be paid, and was paid out of the school fund of Kentucky for work done in various offices, including that of the office of Superintendent of Public Instruction, Attorney General, Adjutant General, and for the office of the Clerk of the House, Senate, and for other work done on the third floor in the new Capitol. This was payable to an undertaker and paid out of the school fund of Kentucky, which the Constitution and the statutory law both require to be "inviolable" and "sacred." I have a photograph of a document filed in the records of this transaction, which reads as follows:

"O. K.  
"Charge to J. G. Crabbe (School Fund.)

"According to agreement with commission for altering Hall of Fame.

C. M. Fleenor."

"This estimate was allowed and ordered paid by Board of State Capitol Commissioners, June 7, 1909.

Edward M. Drane, Secretary."

I have also before me a duplicate of a contract made and entered into between the Capitol Commission of this Republican Administration, under the terms of which these school funds were paid to a Republican undertaker; and this agreement and contract approved by the Superintendent of Public Instruction under this administration.

Incidentally, I might mention an item of \$15.00 that was paid out of the school fund for six small silk curtains about the size of a pocket handkerchief, to be used in the Hall of Fame, that the light of day might be shut out from these precincts wherein were supposed to reside the hope of Kentucky's childhood, and the future of Kentucky's manhood and citizenship.

I want you to note that this same Dr. Bruner, who was a member of the State Board of Education at the time, and a member of the State Capitol Commission at the time, and who is the same Dr. Bruner who presided over the destinies of the now defunct Commercial Bank and Trust Co. of Louisville, voted for and authorized by his vote this unholy diversion of a "sacred fund;" and that he was a member of the Sinking Fund Commission, charged under the Constitution with the protection of this fund; and the same Dr. Bruner who attacks this present Administration in its management of the school finances of Kentucky.

I want you to note that Mr. R. "Pea" Green, who is the Republican nominee for Superintendent of Public Instruction, endorses all of this, and that he is the same Mr. Green who is an Indiana carpet-bag Republican, hardly yet a naturalized Kentuckian; and who has been fed at the public crib of Kentucky by the hands of Democrats, for years, as a "professor" in the State Normal School at Bowling Green.

#### Explains Morrow's Charges.

Now, referring to certain items in Mr. Morrow's Bowling Green speech, to wit: \$63.75 for motor car service, charged to the credit of this present Administration, and it is a credit to this present Administration, that this money was spent on behalf of the restoration of decency in the conduct of teachers' examinations in Kentucky. Mr. Morrow and his associates know that this expense for motor car services covered a period of more than two months and that this service was rendered by your humble servant as Inspector of Schools and as a public officer, doing his duty to conserve the very bed-rock, foundation and morale of the public school system of the State. As a result of the expenditure of this money, there has been no more stealing and selling of examination questions in Kentucky and the illicit traffic has been completely broken up and eliminated.

He refers to an item of \$45 for taxicab services in the city of Louisville. He knows that this was paid as of one date, as is customary, but that it covers items extending over more than a month, on account of services during cold, dark and winter nights, in an effort to assist in the recovery of \$100,000 back taxes due the school fund in the Highland Park Graded School District from the Southern Pacific Railroad Company. The records of the Jefferson Circuit Court show that this money was recovered and paid over on account of the efforts of your humble servant in the prosecution of this case. He refers to a small item of \$2.85 on account of two meals on a dining car between Frankfort and Paducah, and other items expended on account of this same trip to Paducah, which covered a period of three days, amounting, altogether to \$28.65 in all.

He knows that this was a legal expenditure of money, and fruitful of results of which the State today is proud. On account of a call and a summons from the Livingston County Circuit Court, demanding the service of your humble servant and the speaker, in a case involving the prosecution of a County Superintendent of Schools, alleged to have embezzled the school funds of the State and county; and the money was recovered.

#### More G. O. P. Extravagance.

I want to speak briefly of some little expense matters incurred under the Republican Administration. In 1910 there was passed an Act at the instance of the Republican Governor, allowing this Governor \$3,000 for the entertainment of a National Governor's Conference at Frankfort, but on account of some joker left in the bill, this expense was decided to be a permanent appropriation. However, I believe that that is all right and have no criticism to make of it, but let us see how the funds were expended by Republicans: On June 28, 1910, there was charged to the State \$29.00 for one trip to Lexington and return; June 29, \$57.12 for a trip to see Mr. Roosevelt in Louisville, and there is an item of \$23.40 for meals on car, baggage, cab, portage, and an item of one five cent street car fare. I find on October 29 an item of \$21.62 for trip from Louisville to Bowling Green, for the purpose of making a speech before the Normal School. I notice in this same item of the Bowling Green trip that this Republican Governor paid \$3 for one lunch, and that he paid \$1.50 for one supper.

I pass over many items similar to this, including some large sums, all of which were paid on what I conceive and what I feel the present Governor James B. McCreary would conceive to be business of a purely personal nature, and not chargeable to any expense fund allowed by the State.

I find that he charged another five cent street car fare, and 65 cents for porter on December 13, and in addition to this, \$6.50 for "presents" and "courtesies" to chauffeurs of various automobiles, and on account of "courtesies to guests." Next I find a charge of 25 cents for a telegram, here given verbatim: "London, Kentucky, November 5. Miss Nora Brown, Frankfort, Ky. Home 7:35, F. & C. Tell Mansion. Augustus E. Willson." On January 10, the same official was paid \$6.44 for entertainment of visitors and their wives at the Louisville Country Club, which occurred on December 2-10, prior to this date. April 18, 1911, \$60.00 paid to the Capital Motor Car Company for one trip. January 27, 1911, \$25.75 for one funeral design and express charges. They not only divert the school funds of Kentucky and disburse them through an undertaker, but use the general expenditure fund for the purchase of a funeral design to be placed upon the graves of the dead. I do not have to make charges, but merely to state the facts as I am doing.

"I give you the facts and figures of these accounts; I leave judgment to your common sense."

#### Luxuries Purchased by Republicans.

I find that they bought for the Adjutant General's office a typewriter desk for \$118; for the Insurance Department they paid \$235.00 for another one. They paid \$150 for three easy chairs in the Prison Commission office. In the office of the Superintendent of Public Instruction they paid as follows: One desk, \$177; one desk, \$130; one small revolving book case, \$50; one easy chair, \$50; one soft-cushioned sofa, \$125; one umbrella rack, \$16. In the office of Dr. Bruner, the Secretary of State, two desks, \$354; one clothes rack, \$60; one plain oak desk, Department of Agriculture, \$100. The Governor's office: One flat-top desk, \$230; one sofa, \$150; one revolving book case, \$60; one hat rack, \$34; one umbrella stand, \$34; one plain book case, \$235; one typewriter desk, \$217. Again, in the office of Secretary of State, one flat-top desk, \$175; one typewriter desk, \$217; one soft-cushioned sofa, \$140. I am omitting items amounting to thousands of dollars, for lack of time and space to mention them. I do find again for Dr. Bruner's office two more typewriter desks, \$344, not listed separately, and one wardrobe for this Secretary of State, \$79. For the Assistant Secretary of State I find a typewriter desk, \$172, and one umbrella rack, \$95. One wooden bench for the lobby of the Auditor's office, \$47.50. In the Treasurer's office, one flat-top desk, \$220; one roll-top desk, \$192; one easy chair, \$185, and many other costly and expensive items. I find a desk for the Librarian's office for \$177. I find three easy chairs at \$85.00, and a great many of what they style as side chairs, that amount to thousands of dollars. I do not know what side chairs are intended for, but doubt if there is sufficient space in the entire State Capitol to afford storage room for all of the side chairs bought and paid for under this Republican administration. Expensive luxuries, contracted for by Republi-

cans and paid for by Uncle Si and John Jones, who earn their bread by the sweat of their brow, pulling the plow line over Lize through hot summer days.

Such figures are a record of service to the people, comparable to that exhibited in the famous Pennsylvania State Capitol graft disclosure. I find that these Republicans bought a number of chairs at a most exorbitant price for pages in the Senate Chamber. Evidently they were preparing for the extra help charged to the Democrats at the present time, and I find another item of \$376 for easy chairs that are never used on any occasion, and four more sofas amounting to \$560. I find an item of \$1,700 for an unnamed number of oak chairs and any amount of money expended for more side chairs, etc.

Mr. Morrow has referred to an item of drinking water. The Republican Administration preceding the present administration, installed at approximately \$90,000, a plant, a part of which was for the purpose of furnishing to the offices in the State Capitol refrigerated water, filtered and refrigerated. It is a well-known fact, Mr. Morrow and his associates know, that this plant, built by his own party, was and is yet an absolute failure, and that that never was supplied by this expensively built plant either filtered or refrigerated water to any Department in the State House. I consider it just as much my right under the law to provide myself and my associates with pure water on hot summer days when serving the people between the hours of 7:00 A. M. and 12:00 at midnight, as any other Department in the State Capitol, and I state that it has been customary among most of the offices to purchase and provide drinking water just as they have purchased and provided ice and other small necessities incident to the conduct of these offices at the expense of the State.

#### Printing Placed by a Commission.

Mr. Morrow refers to printing bills and printing contracts; he mentions an item of \$5,000 paid in 1912, most of which was contracted for under a Republican administration and paid for by the present administration. This is, therefore, a part of the deficit left by the former Republican administration. He states that all the printing in the Department of Education was contracted for by the State Superintendent of Education, and that it was known to be false. The State Superintendent of

Public Instruction has no jurisdiction under the law in the matter of letting a printing contract. He (Mr. Morrow) knows that the law provides for a Printing Commission, composed of the Governor, the Secretary of State, the Auditor of Public Accounts, the Attorney General and the Treasurer, and that all printing contracts let for the Department of Education have been subjected to the scrutiny and are directly under the control of the State Printing Commission, as provided by law. He insinuates extravagance in the matter of the amount of printing done in this Department. Mr. Morrow endorses in his party platform free text-books, free printing and a seven months' school term, and yet viciously repudiates all of them in his speeches.

#### Printing Sent to Every School in State.

During the present Administration there have been sent free to the people of Kentucky—Democrats and Republicans alike—more than a half million pieces of printed matter, that have been in a nature sent to them as free text-books. We cite for instance, the State Course of Study, which is a text-book in every school in Kentucky and a guide for practically every State in America. In addition to this, we cite the Arbor & Bird Book, 25,000 copies of which have been distributed this year free to a people of Kentucky, and which has done more for the conservation of our natural resources and accomplished more in behalf of the conservation of our forests than all else done in our previous history of Kentucky.

This department has distributed free to the people hundreds of thousands of pamphlets, bulletins and books, including the valuable History of Education in Kentucky, and the Official Manual of Kentucky, all of which have been gladly received by the people and for which this department has been most cordially commended. The cost of these publications is but a trifle compared to the great good received by the people of the State. We have no apologies nor any defense to make for any publications issued or any printing that has been done by this department; we have done it for the people; it has been paid for by the people, and the accruing benefits have been received by the people.

#### G. O. P. Printing Order.

We wish to note, however, for the benefit of an unsuspecting public, that under the previous Republican administration, on December 6, 1911, five days prior to the inauguration of James B. McCreary as Governor, as shown by the entries entered on pages 4 and 44 of the records of the Printing Commission there was an order made by the Printing Commission directing the Commissioner of Public Printing to let contract for the publication of nine geological bulletins to certain parties not having the State contract. These articles, represented by certain individuals, were presumed to

### Another Viewpoint.

The question that now bothers President Wilson is not whether Carranza is able to maintain responsible government so far as foreign relations may go, but stable government so far as the Mexican people themselves are concerned. In other words, Mr. Wilson, has reason for grave doubt that Carranza, if recognized, will have sufficient support from the Mexican people themselves to enable him to discharge the responsibilities of government to his people and to foreign nations. Reasons for this doubt are found in the positive statement of a high church

dignitary that "no present faction in Mexico is respectable enough to command the confidence of a considerable portion of the Mexican people."

One thing is certain—if Carranza lacks respectability sufficient to command the confidence of Mexicans themselves, recognition by the American government will only make bad matters worse; for he will trade upon recognition to gain means to force compliance with his authority with the final result that where he now lacks confidence he will create antagonism. The moment the Mexican people become antagonistic to Carranza, the opportunity is created for

another revolution, and there are enough unscrupulous men in Mexico to make the most of this opportunity. This President Wilson undoubtedly foresees, and causes him to hesitate to grant recognition.—The Grit.

### A Million and a Half for Roads.

Kentucky took the most advanced step in its history for development and progress when it adopted State Aid for roads. This year in Kentucky something like a million and a half dollars will be spent by the State and the counties in the construction of good turnpikes. This money is being spent intelligently, under capable supervision, and with plans and specifications which insure that the roads will be properly graded, properly drained and properly constructed.

We are beginning in Kentucky this year a system of inter county seat highways, which, in five or six years will result in the construction of all the important roads in all the counties in Kentucky. Under the first year's operation of the State Aid law 104 of the 120 counties have availed themselves of State Aid and Mr. Robert Terrell, the State Highway Engineer, has received assurance that next year all of the counties will apply and receive State Aid. This means that some forty of fifty counties in Kentucky, that have not a mile of turnpike in them, are going to have all their important roads made of good rock and gravel.

The building of good roads is of inestimable value to all classes of people, but keeping them up after they are built, is equally as important. If Kentucky would profit by its experience with these and other state roads it will provide, by legislative enactment next year, a means for maintenance which will keep all roads built by the financial assistance as good as they are when first built. It will be the most wasteful extravagance of the state's money if it is not done. It is better not to tax the people at all to build them and then let them go to ruin. The state should provide out of the present State Road Fund \$100 per mile

### When Baby Has the Croup.

When a mother is awakened from sound sleep to find her child who has gone to bed apparently in the best of health struggling for breath, she is naturally alarmed. Yet if she can keep her presence of mind and give Chamberlain's Cough Remedy every ten minutes until vomiting is produced quick relief will follow and the child will drop to sleep to awaken in the morning as well as ever. This remedy has been in use for many years with uniform success. Obtainable at Paull Drug Co. Ad

each year for the maintenance of all State Aid roads and should require counties to contribute an equal amount per mile. For the first year this would take ten per cent. of the state fund and at the end of five years, on the basis that each county by that time will have built fifty miles under State Aid, it will take half the fund to keep them up.

No money can be better expended than the money used in keeping up good roads. We have seen fine turnpike roads in other counties of the State go to pieces and become almost worthless because repairs have been neglected. This thing will be repeated all over Kentucky with these state roads unless there is a repair fund definitely set aside.—Frankfort Courier.

## DOES IT PAY TO BE SICK?

Let's forget about all the disagreeable and painful part of sickness, and ask ourselves if it PAYS to be sick.

Perhaps you are only HALF sick—maybe you are dragging yourself around, with a "dead tired" feeling. Perhaps you wake up in the morning with a heavily-coated tongue, a bad taste in your mouth, and hardly any appetite. Quite likely you are bilious. Maybe you have dull aches and pains, CONSTIPATION, headaches.

You go about your daily duties. You tell yourself you will feel better to-morrow—but when to-morrow comes you feel just about the same. You try this and that remedy, without getting real relief. Or if you get some relief, it doesn't LAST! You soon feel just as bad as you did before. DOES IT PAY to let yourself stay in this half-sick condition? Think of all the ENJOYMENT of life you are missing! You can't enjoy your food, or the society of your family and friends. You can't enjoy anything as you should, because your senses are dulled and your brain oppressed by the effects of a SLUGGISH LIVER.

Say, friend, does it PAY you to lug around that sluggish liver when you can promptly make it ACTIVE and so get rid of all those depressing, disagreeable symptoms—by letting

## OUR LAST SAY.

It has never been our intention to mislead or to paint a picture fairer than the object, but to deal only in facts, be they bright or gloomy. In keeping with our record and in justice to our position, we are here to announce to the readers of The News that the backbone of the business depression is broken and brighter days are on the country. There are many who look on the dark side for political purposes. Many partisan political adherents who are ever ready to advance their partisan proclivities by an effort to tear down the opposing party, and are willing to pass through bankruptcy and destruction of the country to re-establish their party in power. In fact there are those who are so partisan and who are so blind to their own welfare, that they are not only willing; but anxious to paint the darkest picture possible to play on the unthinking part of the great mass of voters. The Democratic party came into power at an opportune time. It met the clamor of the public on the issues due to many years of Republican rule. It inherited a most complicated position with Mexico—torn to pieces by insurrection and anarchy, bringing this country to the verge of forceful intervention, but the watchful waiting policy of Woodrow Wilson has carried us over the dreaded and destructful catastrophe of war—saving thousands of lives of our young men and millions of our treasure. In fact the Mexican war cloud has lifted and lifted only through wise and sensible action of a Democratic administration. While under the mutterings of

war and uncertainty with a sister republic, while adjusting political pledges demanded by the great mass of our people the European War, with a world wide paralyzing business effect broke loose with all the fury and destructiveness of hygienic fury. It seemed almost impossible to keep our country out of blood and destruction and off of business bankruptcy, but sane and discreet negotiation has kept us on neutral ground in the road that leads to ultimate success. Our country has acted in that manner that commends it to the admiration of civilization, prosperity and forbearance and is practicably free from entangling condition heretofore threatened. Through all these difficulties, through the depressions to business that followed under the cloud of war, when industries by a world condition were almost paralyzed, our country has proven master and is rapidly coming into its rich inheritance of the greatest era of prosperity in its entire history; Throughout the country business is rapidly improving and in many lines of industry the normal stage has been reached. The depression is over, stagnation past and he who can not see the bright lining of the near future is to be pitied. In the South the staple crop, cotton, has passed from the unprofitable market to the buoyancy of profit, stimulating other sections in the sale of commodities bought in that section. In the coal producing territory every mine is running on full time and the demand for labor is not met. Timber products are rapidly becoming active, steel iron and kindred merchandise are advancing under the pressure of demand. Railroads, long under the baneful effects of politicians and a public pendulum that swung too far, are coming into their just share of an awakened business condition and dividends instead of deficits are being produced. It matters not what you produce, whether farm, factory or labor the price is high, the demand increasing. It is an insult to intelligence to charge the business depressing now rapidly passing to the Democratic party. It is a gross injustice not to credit it with a wise and sane national policy. Unless a man is blind to facts, unless he prefers party advantage to public prosperity he is bound to see the bright lining of awakened conditions. The greatest era of prosperity we have ever had is now spreading over the entire country. At peace with the world, the bank of the universe and the asylum for nations, the upward trend commercially can not be checked unless our public policy is reversed. Democrats keep steady the national victory will soon be complete. Under severe circumstances and severe criticism the Democratic party proves the wisdom of its policies and leaders. A vote for the State Democratic ticket is an endorsement of the National Democratic policy of watchful waiting that has brought us from under the clouds

of dreadful war, from out of commercial and financial chaos and placed our country at the head of stability, peace, confidence and prosperity. Vote it straight and you vote it right for every member of the ticket, State, District and County are competent, worthy and deserving.

Hon. Roy Willhoit, of Louisville, spoke to a fair audience at the court-house, last Friday afternoon, in the interest of the Republican State ticket. As it is the custom of Republican orators to denounce Democrats in office, Mr. Willhoit's speech was along that line. This has been the most bountiful crop year in the history of the country, hogs, cattle and sheep bringing big money, yet the speaker asked for a full dinner pail, but declared that he would not get it until the Republican party was again placed in power. He was extremely severe on the Democratic State administration, and thought Mr. Morrow would be elected by fifteen thousand majority. In a few days we will know how accurately Mr. Willhoit predicts.

Democrats of Adair county should remember that they owe Mr. R. B. Trigg, candidate for the State Senate an act of gratitude. He did everything in his power to take Adair out of a Republican Senatorial district, and they should vote for him to a man, and we believe they will.

All of Mr. Ray Montgomery's friends should be at the polls next Tuesday. He is a candidate to represent Adair and Cumberland. He would make a watchful member of the legislature, such a representative as the district needs.

Its no earthly use of claiming big majorities for the Democratic ticket if that is all you are going to do. Go to work and work most consistently from now until the polls close on election day.

If you want to continue to live in a peaceful country, vote the Democratic ticket next Tuesday. In so doing you endorse President Wilson, the man who has kept this country out of war.

The bugle notes have at last been wafted upon the air of Democracy until every section of the commonwealth vibrates with their sweet sounding call.

Nearly all the Democratic papers are predicting that Mr. Stanley and the remainder of the State ticket will win by over thirty thousand votes.

"Give me liberty or give me death," so says that gallant defender of equal rights and home loving cares, Owsley Stanley.

This is the last issue of the News before the election. Vote next Tuesday and vote Democratic.

Democratic principles are the best safe guards to human liberty. Vote for them.

## WILSON ON STANLEY.

"The White House, Washington, Oct. 20, 1015.—My Dear Senator: I have been following with the greatest interest the progress of the campaign in Kentucky and am very much interested to observe what just grounds of confidence the party has of success in your great State. My own association with Mr. Stanley has given me an impression of strength, capacity, intelligence and integrity, which makes me feel that his election as Governor of the State will constitute a triumph to which the party can look back with special pride, because it is always a matter of pride to serve a great State by putting the very best man at her disposal for public service.

"Will you convey to Mr. Stanley my warmest good wishes and my confident hopes for his complete success? Cordially and sincerely yours,

"Woodrow Wilson,

"Hon. Ollie M. James, Lexington, Ky."

This letter from the President was written on his own initiative. Had it been possible, he would have come to Kentucky to give in person his estimate of the worth of A. O. Stanley in the public service.

Next Tuesday will be the election. Go to the polls early and vote the Democratic ticket.

## WAR SITUATION.

Serbia's desperately resisting forces continue to be forced back by the relentless pressure of the Austro-German invaders.

Official statement from Berlin records the enforced retreat of the Serbians south of Lucina and Bozavac, the latter place being about twelve miles southeast of Pozarevac and some twenty miles south of the Danube.

Bulgarian troops have captured Sultan Tepe, and have taken 2,000 Serbian prisoners and twelve cannon. The Austrians also have made progress in moving on Shabatz, on the Save river west of Belgrade.

French troops have succeeded in protecting the lower end of Nish-Saloniki line and large additions to their forces are on the way to Saloniki, a dispatch from that city states. The general movement of the Allies from Saloniki is said to be awaiting the concentration there of sufficient forces for their operations.

Saloniki advices state that the Serbian capital has been transferred from Nish to Prizrend, close to the Albanian frontier in Western Serbia.

No important operations on the western front are reported by any of the belligerents. In Russia advances for the army of Field Marshal von Hindenburg northeast and northwest of Mitau, southwest of Riga, are claimed by Berlin.

Russia is preparing to issue a short term 5½ per cent. internal loan of \$500,000,000, a Petrograd announcement states.

The resignation of Sir Edward Carson from the Attorney Generalship in the British Cabinet was due to a divergence of views with regard to Near Eastern affairs, he announced to-day.

Turkish forces are to co-operate energetically with the Bulgarians in opposing the Allied operations in the Balkans, Athens advices state. Turkish troops, it is reported, are being concentrated near Dedeagatch, Bulgaria, on the Aegean Sea. The landing of an Allied force at Enos, near Dedeagatch, was reported recently.

Bulgarian troops are being concentrated on the frontiers of both Rumania and Greece, according to a Saloniki dispatch to Paris. Three divisions are being gathered near the Greek border, it is stated.

Cutting the Nish-Saloniki railway line south of Nish by the Bulgarians has compelled the diplomatic corps at Nish to postpone its expected departure for Monastir, in Southern Serbia, an Athens dispatch states.

Reports from German sources received in London indicate that a campaign against Montenegro by Austro-German forces is contemplated. Twenty thousand infantrymen, together with an artillery force, have been sent from Galicia to Bosnia in preparation for an advance into Montenegro, it is declared.

### Gradyville.

Rev. W. C. Christie and wife are spending this week at Summershade.

Joel Rodgers was on the sick list several days of last week.

Mrs. L. C. Nell and son are visiting relatives in Owen county at this time.

Miss Mollie Flowers spent last Saturday and Sunday at Greensburg.

Dr. B. F. Taylor, of Columbia, passed through here the first of the week en route for East Fork.

Dr. L. C. Nell spent a day or so at Greensburg the first of the week.

Rev. Jo Furkins is holding a great revival in the Keltner community. There has been quite a number of profession. The services are held in a large tent.

The Republican speaking at this place was largely attended, last Friday night.

Robert O. Keltner was on the sick list a few days of last week.

The series of meeting that has been going on at Big Creek church for the past two weeks, conducted by the pastor, Rev. Pardew, and Rev. Roach, closed last Thursday night, with fifteen or twenty profession as well as the community at large greatly revived.

Bridgewater & Co., the well-known tinner of Columbia, put in several days of last week, at work in our town putting a new roof on W. M. Wilmore's dwelling.

Mrs. H. A. Moss and sister, Miss Williams, of Greensburg, passed through here last Friday en route for Cumberland county, where they will spend several days visiting.

There is two or three carloads of hogs in this section that will be ready for the market in the near future. We understand that woods are lined with hogs and there is more hickory nuts and acorns than can be consumed by the hogs, not to mention the beechnuts and chestnuts.

The spirit of progression continues with our people. Last week George E. Nell and Robert O. Keltner exchanged houses and lots, in our city, the former giving the latter \$400 difference. So, Mr. Nell and family will move, in a few days, to the property recently owned by W. L. Grady, and uncle Robert Keltner and family will move to his property that will be vacated by Mr. Nell. This deal round both these men up with property that suits them exactly.

Nell Bros. closed a deal with J. H. Smith, last week, that puts them in possession of 380 acres of the best farming land in this section, for the consideration of \$20.00 per acres. This land is well improved and under a good state of cultivation. Eugene Nell and family will move to the farm about the first of the year we understand. We have not learned what Mr. Smith's intentions are. We know he is one of our best farmers and business men. We hope he will locate in the county.

### An Editor's Pay.

M. C. Tracy, of Macon, Ga., tells the following story of the time when tobacco and pigs were used as money:

"I well remember along in the 50's, of seeing great stacks or bumbles of tobacco piled up on one side of the Huntsville American office. That was along in 1856. The tobacco represented receipts on subscriptions. Each bundle contained ten pounds of tobacco, and was good to make the subscribers solid with the paper for one year. The tobacco was weighed in the office and the subscribers was credited with ten cents a pound, the market price. The tobacco offered the editor was of the finest quality and used only for cigars. There was a large factory in Huntsville, where a great many slaves were employed in getting the tobacco ready for the market. The editor sent his tobacco off along with that of the shippers and received his money when they did.

"Back of the newspaper office was a pen, where the editor would keep pigs and small stock taken on subscriptions. There was but very little money in the country, and such things as the farmers raised passed as legal tender. A newspaper office was practically a warehouse for country products.

"The most remarkable payment on newspaper subscriptions, perhaps, was that tendered by a subscriber to the old Bloomington Gazette, somewhere in the 40's. The subscriber had a large, flat tombstone which had been erected at the head of some of his ancestors' graves. He had long forgotten who the ancestors were, and as the editor needed a smooth stone to mix his ink on, he found the reverse of the monument to be just the thing and promptly credited the subscriber with his subscription for the stone, and both felt the richer by the trade.

### Nine Babies in 24 months

About 15 months ago a Mrs. Drury, of Spencer county, gave birth to 5 children, 3 of whom are still living and healthy. Two (2) weeks ago she presented her husband with four more little wee darlings—making nine she has had in less than two years. This is a little ahead of anything we have heard of before and proves that while Spencer county may not be as productive agriculturally as some other counties, she certainly cannot be headed when it comes to raising children.—Frankfort Courier.

### A Clogged System Needs Attention.

Are you bilious, dizzy and listless? Dr. King's New Life Pills taken at once seizes upon constipation and starts the bowels moving naturally and easily. Moreover it acts without griping. The Honorable E. T. Franks is going up and down the State orating in behalf of the Republican ticket, and telling of the mistakes of President Wilson. This reminds us of what Mark Twain said of Bob Ingersoll's lecture on the "Mistakes of Moses." Mark said: "I paid \$1 to hear Bob Ingersoll on the 'Mistakes of Moses,' but I would have given \$5 to hear Moses on the the 'Mistakes of Bob Ingersoll.'"

## Sensible Women Know Foundation of Health

As health talks to women become more general, both in the newspapers and on the platform, the mass of women are beginning to realize what the more cultivated have always known, that good health cannot be found in a powder box. The externals of health may be obtained in that way, but the basis of health lies deeper, and yet is just as easily obtained.

The most important thing that a woman can do for herself, and about which she is often most neglectful, is to watch the condition of her stomach and bowels. The weary eyes, the bad breath, the frequent headaches, the pimples, the general air of lassitude is nine times out of ten the result of constipation or indigestion, or both. Many simple remedies can be obtained, but the best in the estimation of most women is Dr. Caldwell's Syrup Pepsin. It is mild, pleasant to the taste and exactly suited to her needs. It is far superior to salts, cathartic pills, waters, etc., which are entirely too violent. Women should see to it that they have at least one movement of the bowels each day, and when showing any tendency to constipation should take Dr. Caldwell's Syrup Pepsin in the small dose prescribed. A brief use of it will so train the stomach and bowel muscles that all forms of medicine can be dispensed with. These opinions are voiced by thousands of women, after personal experience, among them Miss V. L. Moore, 32 Claiborne St., Nashville, Tenn., and Florence Cook, Lucas, Ky.

Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. B. Caldwell, 405 Washington St., Monticello, Ill. Your name and address on a postal card will do.

### Stanley a Wonderful Man

The career of Owsley Stanley since boyhood has been most remarkable. By close study of political economy and by his indomitable will power, together with a large and extensive knowledge of man, he has been able to thoroughly understand the wants of the masses. There is no man in the South so well qualified to render services to the whole people as he. Take his career from the time of his induction into office and his every act has demonstrated that he possesses an unusual amount of business capacity and a mind that is as clear as crystal. While a member of Congress he was not classified as one of the ordinary "Hon's." He was always in the first pew and what he said was not only eloquent but full of logic. No man received more absolute attention on all occasions than Stanley. While chairman of his committee he never knew what it was to become fatigued. With an untiring energy and magnificent ability he has proven that he is one of the political jewels of the present day.

**There Is No Question** but that indigestion and the distressed feeling which always goes with it can be promptly relieved by taking a **Rexall Dyspepsia Tablet** before and after each meal. 25c a box. Paull Drug Co.

be the Inter-State Publishing Co. The contract for the printing of these bulletins was approved by George A. Lewis, Superintendent of Public Printing, and presented to the subsequent Democratic administration for approval and payment. This was the first information which the new Printing Commission, composed of James B. McCreary and his associates, received of the fact that their predecessors had authorized the Superintendent of Public Printing to let a contract to persons other than the regular contractor. It is a well-known fact that Mr. Lewis was called before the Commissioners to explain why the contract price of this job of printing was so greatly in excess of the prices for work done under the regular State contract. The Superintendent was required to furnish an estimate of this work under the regular State contract. It was found that the Inter-State Publishing Company was charging \$1,718.50 for what the State, through its regular contract, would be required to pay \$1,165.78. It was also found that county report No. 4, which under the special contract amounted to \$1,702.00, would amount to only \$1,093.00 under the State contract, as would have been let by a Democratic administration and a Democratic Printing Commission. The Democratic Printing Commission refused to pay under this special contract made by Republicans with some spurious Republican beneficiaries, and saved the State on two items, \$1,161.72. It is also a notable fact that this special contract has disappeared and can not be found in the office of the Superintendent of Public Printing.

### Turns the Light On.

Now, my friends, there is nothing so clarifying and purifying as sunlight, and I have taken the pains to have before me facsimile copies and photographs taken from the originals of all of these illegal acts.

I need not refer to the fact that Mr. Morrow has himself admitted his false statement and error in regard to the balance that he alleged to have existed in the school fund of 1914 of \$683,000, and that the per capita was kept at \$4.00. He has apologized already to the public for making such a statement.

### Secured Seven Month School Term.

I would like to add here, however, that on account of this \$638,000 accumulated by conservative business management of the school funds, I did, arbitrarily, on account of what I conceived to be my authority as executive, state that I would declare a seven months school term. I was immediately advised by the proper legal authorities of the State that this could not be done without Legislative enactment. Then I did declare a \$4.50 per capita, the largest that had ever been declared before in the history of Kentucky, and every teacher in Kentucky knows that the salaries were paid promptly every month. I then drafted a bill for the following Legislature, which was passed, and the result of which was the establishment of the seven months school term which we now have, at a per capita of \$5.25.

### "Broncho" Franks, of Owensboro.

Now, I have noticed that a certain Mr. Franks, known as "Broncho" Franks, from the city of Owensboro, has attacked the Department of Education, also in a most vicious manner. I have never heard of Mr. Franks being a friend to the cause of education, nor to any other worthy cause. I do know that there is in the records of the Franklin Circuit Court that Mr. Franks was indicted and tried for an alleged crime that would make one so sensitive as he claims to be blush in shame and keep himself in obscurity, instead of in bold hypocrisy attacking the decent and honest servants of the people and the innocent children of this commonwealth. I do not know how Mr. Franks has become so prominent in the politics of his party, nor how he has grown so rich, but I have been told that he had something to do with the equalization of liquor revenues, whatever that is; I do not know. But, I am informed that it was in his case a most lucrative business, and, on account of his expertness in such matters, he became Collector of Internal Revenue and retired from this office a millionaire after four years' service. This is all rumor to me—I do not know that it is absolutely true. However, it is told by Republicans, and I am sure they would not disparage Mr. Franks intentionally.

I do not take time to refer to the attacks of the other "small" gentlemen on this Republican ticket, and those interested on behalf of this ticket. The time is too short. The Honorable Judge Lewis Walker, for instance, a turn-coat Democrat, who would sell his birthright for a mess of pottage, and yet with all that being a Republican. I feel kindly towards him on account of my sympathy for people whose ignorance is commensurate with their avarice, and I pass him by, and put him in a category with the heretofore referred to, R. "Pea" Green.

### Endorses Woodrow Wilson.

Now, in conclusion: The Democratic ticket is led by a princely statesman whose ability and achievements are comparable with those of a Woodrow Wilson, an Ollie James, or any of the greatest Democrats of this age, or any other age. The fact that the

Republican nominee for Governor would stoop so low as to direct his attacks, and all of his lieutenants to direct their attacks at the insignificant office of State Superintendent of Public Instruction is indicative of the fact that they are desperate and know not where to turn, nor how to form their lines for an attack.

### Morrow's Doom is Sealed.

The fact of the business is, Mr. Morrow, and every man on his ticket, realizes and recognizes, and acknowledges already, ignominious defeat, and by their mad attacks upon the bulwark of the commonwealth, the public school system, they evidence the fact, and notoriously parade the fact, that their attitude is retrogressive in all things and especially in this one great business of the State. Mr. Morrow sealed his doom in his first attack in his speech at Bowling Green. A man of such low ideals, and of so small conceptions of what a great commonwealth should be and how it should be developed, is not fit to be the nominee even for the great office of school trustee, in this State. The Republicans, even of the most radical type, condemn him for his unwarranted, flimsy attacks, based on hypocrisy and the intense desire to get an office.

### Too Far Advanced to Consider Hypocrisy.

I tell you again, my fellow citizens, that the people of Kentucky have advanced too far to consider such cant and hypocrisy. Their homes are too dear, and their love for "the little red school house and the church by the wayside" is too pure to listen to a man, or set of men, who would prostitute what should be better ideals to a cause, and an attempt so low. I have faith in the people of Kentucky; I have faith in the God-fearing mothers and fathers of Kentucky, to the services of whose little children I have dedicated my life and efforts; I have faith in the school teachers of Kentucky. I have led for four years Kentucky's great "standing army," and I tell you that America's standing army is today that body of school teachers of which Woodrow Wilson has been one; and that it will be due to the efforts and the ideals of this army that America will go forward continuously in peace, love and prosperity.

### A Reconstructed Man Costs \$500.

With exhibitions and catalogues of artificial limbs now brought to notice one gets to calculating the cost of a reconstructed man. Seemingly a little more than \$500 would suffice. A pair of artificial legs costs about \$150 and a pair of arms about \$100. Ears, with drums, etc., cost \$75 each; eyes \$30 a pair, and so on. Without heart and brain a man is worth about \$500. With them—the price might change.—London Chronicle.

### Nothing to Be Said.

Judge—You admit, then, that you stole the loaf of bread? Woman Prisoner—Yes, your honor. Judge—What have you to say for yourself? Woman—Nothing, your honor. If it was lace or jewelry I might plead kleptomania, but we can't try that when it's bread.—Chicago Herald.

### In the Station.

"I want to take a train to New York."  
"But, my dear sir, we pay our engineers to do that."—Baltimore American.

### Harsh Cure.

Hubby (at breakfast)—I've got a bad head this morning. Wife—I'm sorry, dear. I do hope you'll be able to shake it off.—Boston Transcript.

### From Florida.

Bradentown, Oct. 16, 1915.

Editor News:—

You will find enclosed \$1.00 to pay for my subscription to your valuable paper, so let The News come. It is like a letter from home. Every week through its columns I hear from a great many of my Adair county friends.

My wife is just back from a visit to old Kentucky, where she has been for the past three months, visiting her mother, Mrs. M. E. Thomas, and friends near Milltown. She says everything looks fine in that section of country, in the way of crops.

Well, all of the Kentuckians here in Bradentown are getting along nicely and enjoying good health. The farmers here are very busy now planting out their fall and winter crops, and by Christmas we will be eating fresh vegetables of all kinds out of the gardens.

The packing season is close on here. The packing houses will open the first of next month and that will put a great many men at work, and then the orange and grapefruit will begin to go North by the car load.

The Northern people are beginning to come to Bradentown for the winter.

What has become of my old friend, J. B. Barbee? I often think of him and the cold winter nights when I was driving the mail hack. I hope to make a trip to Columbia next summer, but don't want to tackle it this winter.

For fear this may find the way to the waste basket I will close by wishing the News and its force a merry Christmas and a Happy New Year.

Your friend,  
W. S. Chapman.

Owensby.

By way of introduction we wish to state that at the solicitation of his many friends, both Republicans and Democrats, Mr. M. L. Owens, of this place, has decided to enter the race for Circuit Court Clerk, on the independent Democrat ticket. We know Mr. Owens to be an honest, sober, upright Christian gentleman and business man, being postmaster and merchant at this place until about two years ago. He is also a veteran

## DOUBT ENDS WHEN SHE TRIES TANLAC

Mrs. Emma Henle Says Relief Was an Agreeable Surprise to Her.

Louisville, Ky., Oct. 26. — Mrs. Emma Henle, of 1549 Kentucky street, Louisville, declared recently that she had little faith in Tanlac when she began taking it, but that after a few doses she noted a remarkable change in her condition.

"I had suffered for years with kidney trouble and rheumatism," she said recently. "At times the pain was so bad I could hardly stand it. I had no appetite and lost a great deal of sleep. My friends became alarmed about me. My nerves were in a dreadful shape and I had no strength."

"I decided to try Tanlac because I had heard so many people say it had helped them. I am frank to say I didn't expect it would do me much good, but in that I was agreeably surprised. I had been taking it a very short time when my appetite came back. I sleep as peacefully now as a baby, and have gained strength and weight. I really feel like a different person, and I have Tanlac to thank for it."

Tanlac, the premier preparation, is of proved value in cases of kidney and liver trouble, poor circulation, rheumatism, catarrh and kindred ailments. It is being sold now in Columbia at Page & Taylor's drug store.
